## SUMMARY

Experienced web developer specializing in JavaScript, React.js, HTML5, Node.js. Proficient in Data Structures, Algorithms. Skilled in crafting robust applications, leveraging these technologies for efficient development.

## SKILLS

**Languages:** Java, JavaScript, TypeScript, HTML5, C++, SQL, CSS3

**FrameWorks:** React.js, Next.js, Node.js, Express.js, Redux, Bootstrap, TailWind, Bulma

**Databases:** MongoDB, Mongoose, MySQL, PostgreSQL

## EXPERIENCE

8/2022 – 10/2022 **Software Enginner Intern**

**Tata Power DDL**

- The objective of this internship project was to learn about web development by creating a website for TPDDL. The website included a home page, login page, register page and an admin dashboard.
- I actively participated in the entire software development life cycle, from requirement analysis and design to implementation and testing. This hand-on experience allowed me to deepen my understanding of web development principles and best practices.
- Tech Stack - Asp.Net, JavaScript, HTML, CSS

## EDUCATION

2020 - 2024

**Bachelor's Of Technology (92.9)**

**Guru Gobind Singh Indraprastha University**

Maharaja Surajmal Institute Of Technology

## PROJECTS

Node.js, JavaScript **Amazon Price Tracker**

 Repository

Developed and executed a Node.js script using JavaScript, Puppeteer, and NodeMailer to create a command line tool for tracking favorite products on Amazon, streamlining the process and enhancing user experience.

Node.js, JavaScript **File System Organizer**

 Repository

Engineered a Node.js command line tool utilizing JavaScript, streamlining file organization by intelligently categorizing and sorting cluttered files into a neatly organized folder structure, saving users an average of 3 hours per week.

HTML/CSS,  
JavaScript

**Edge Ledger Website**

 Live Demo

Designed and developed my personal portfolio website using HTML and CSS, with a focus on achieving complete responsiveness for an optimal user experience.

React.js, CSS3

**React Portfolio Website**

 Live Demo

Crafted my personal portfolio website with React.js and CSS, ensuring full responsiveness for an optimal user experience.

React.js, CSS, JSX

**Movix App**

 Live Demo

This project highlights a collection of movies obtained through the TMDb API and enables users to manage their favorite films. Developed with React.js, react-router-dom, and CSS, it delivers an engaging and seamless user experience.

HTML/CSS,  
JavaScript

**Camera Gallery App**

 Live Demo

This project enables video recording through a webcam and facilitates image capture, leveraging HTML5, CSS3, and JavaScript for its implementation.

HTML/CSS,  
JavaScript

**Open Board Clone**

 Live Demo

Crafted in JS, HTML, and CSS with Canvas and Socket.IO. Collaborate effortlessly in real-time, unleashing creativity on a shared canvas. Simple, seamless, and built for teamwork.
